ABOUT US

OUR VISION

- ✓ Our goal is to produce and distribute gluten- and allergen free, high-quality, vegan products that have an outstanding nutritional value that are easy to digest and suitable to fitness and therapeutic diets.
- ✓ Easy to prepare products which fit perfectly into our quick lifestyle.

WHY TO CHOOSE GOLDEN GRANET PRODUCTS?

- ✓ The major component of the most bakery products is the millet which is one of the most valuable grains due to its high vitamin, mineral and fiber content.
- ✓ On the basis of our self-developed recipes each product is made with a unique innovative technology in Hungary.
- ✓ Our bakery products are long life due to the modified atmosphere packaging.

OUR STORY

The goal of **Golden Granet** company is to produce gluten- and allergen free products that are healthy and delicious. Since we participate in various social actions, we are a qualified social enterprise.

The idea was born from a personal experience. When the founder of Golden Granet gave up consuming various allergens and started to eat clean many of his health problems such as pollen allergy, distension and even back pain disappeared and fatigue was replaced by a life full of energy. Consuming these products also helped with acid reflux and sinus infection. Beside that our products are gluten- and allergen free and even vegans as well. Therefore, we can successfully contribute to reducing the footprint of the humanity and preservation of the health of our fellow human beings!
