

Amurex GM Hungária Kft.

Everything that is gluten free
2018 - 2019

Amurex GM Hungária Kft.

Our company, Amurex GM Hungária Ltd. (Budaörs Food Allergy Specialist Store) has a decade worth of experience in distributing and marketing gluten-free products. We begun baking our own bread and pastries six years ago, continuously adjusting to the needs of the market. Our range of products is outstanding in the gluten-free market since their taste and consistency are the closest to the world of regular pastries. We are an exclusive gluten-free supplier of Lipóti Bakery, organic product shops and we have been one of the listed suppliers of Coop supermarkets since 2017, and our products are available at Tesco supermarkets since 2018.

We co-operate with a number of major companies (Matusz-vad, Mirbest csoport, Helit, Delifrance, Delforg) and public catering companies (Eurest and Hajdúszági Sütődék). Our frozen products are sold with one-year shelf life. Our products are being resold both domestically and abroad in Austria, Slovakia and Romania.

We have expanded our assortment with street food products in the autumn of 2016 with hamburger buns, pítas, pizza crusts, hot dog bread rolls, which enjoy real success in bistros and buffets. We make delicious filled and unfilled gluten-free, private label biscuits with six-month shelf life. Our biscuits are available in 11 flavours. Also, in our biscuit supply carbohydrate-reduced biscuits with oat and cocoa are available.

As a kind of a mission and a niche service, our gluten-free 'Cöli shop and bistro' opened at Nyugati tér in the first half of 2016. Here our customers – even if they follow the strictest gluten-free diet – can test our latest gluten-free developments, which will be directly sold via wholesaling.

We are one of the first 10 companies in Hungary, who have obtained the rights from the Association of European Coeliac Societies (AOECS) – based on the supervision of our quality system, laboratory results and quality compliance tests – to label our products with the distinguishing mark of the Crossed Grain symbol which is the trademark of gluten-free products.

Our company was awarded the fair partner prize by the Chamber of Commerce and Industry of Pest County in 2016. Our company is member of several professional organizations (Hungarian Chamber of Agriculture and Food Industry – member of Bakery and Mill Division, Federation of Hungarian Food Industries – member of Ethical Committee, Chamber of Commerce and Industry of Pest County – food industrial delegate), where we represent the gluten-free line.

Notation:

Wrapped in modified atmosphere (21 days):

We put those products that are ready to consume in modified atmosphere packaging. With a 21 day Expiry date: we recommend this version to retailers.

Semi-finished, frozen (1 year):

Primarily breads / products with low moisture content. We recommend this product to retailers for reselling or baking on site, and home consumption. Practical in case of both types of usage due to the simple way of production (rising, baking). Expiry date: : 1 year.

Fully-baked, frozen (1 year):

Recommended to restaurants, cafés and hotels. Almost every item of our product range can be ordered in this version. The product is presented fully-baked and quick-frozen. In case of bigger quantities they are packaged in cardboard boxes. Due to the Expiry date: of one year it is easy to be prepared for unpredictable needs (eg. hotel guests suffering coeliac disease). Presentation of the products can be agreed individually.

Dear Enquirer!

Baking tasty gluten-free cakes and breads with good consistency can be a real challenge. Even so, we tried and the past few years are showing that it was worth.

In the first weeks we only baked a few breads and some quark pastries, we didn't even have a final recipe. We tasted and experimented. Then it finally seemed we found a recipe for the perfect quark-filled bun. It tasted excellent, not just for us, but the critics and consumers shared our opinion as well.

It was soon followed by our cocoa-roll, bread with seed-mix, Alba bread, and Alba bread rolls... More and more people tried, began to like and demand our products.

The line of products expands day-by-day. We always try to increase the range of gluten-free pastries and also to make eating pastries that are gluten-free an enjoyment, not a necessity.

Enjoy our products with great satisfaction!

We hope you like our range of products and pastries. In case you would like to extend your customer / consumer base with people suffering coeliac disease.

If you would like to expand your customers with celiac buyers / guests, please do not hesitate to contact us!
