Subject: Company introduction

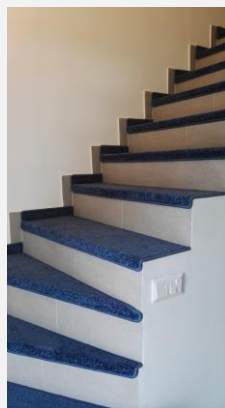

Dear Mrs. Sára Dobó!

Let me introduce our company **UNIKET Bt.**, that was established **more than 30 years ago**. With this long history behind our back we have gained lots of experience in the Hungarian **carpeting and flooring** market.

Our company carries out several activities. Besides representing international brands we have installation capacities as well. Hereby we guarantee aesthetic, comfortable and permanent solutions with highend floor coverings and the installation works of our professional team.

Production and installation of stair carpets:

Since its foundation in 1985 UNIKET Bt. has been manufacturing different designed **stair carpets**. Our company has a **utility patent** in the stair carpet manufacturing registered in Hungary so we can provide our clients with our unique solutions. Thanks to our professional knowledge and experience acquired in the last decades there isn't any stairway which could mean an insolveable challenge for us.

Headquarters: 1068. Budapest, Benczúr utca 48.
Showroom: 1071. Budapest, Dózsa György út 62.

E mail: info@uniket.hu
Tel: 478-0709 / 352-1740
Mobile: 06-70-3819775

According to the different stairs and owner requirements we can produce individually designed stair carpets. The most commonly ordered solutions are the following:

- standard stair protecting carpets,
- custom-made carpets fitting to the size and form of the stairs,
- runner carpets with stair rods,
- complete stair covering with or without skirting.
- Of course, we are prepared to realize different ideas as well.

In addition to the preparation at our workshop we also undertake the **implementation on site**, thus we can fully fit the carpet covering onto the stairs.

At all of our works we use **high quality materials coming from the EU**. Carpets are usually imported from **German manufacturers** such as Vorwerk, Anker and Infloor. UNIKET Bt. is the exclusive representative of these companies in Hungary.

Our customers have been searching us again only after a decade to replace their stair carpets that we had made for them.

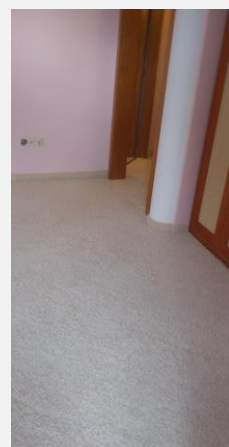

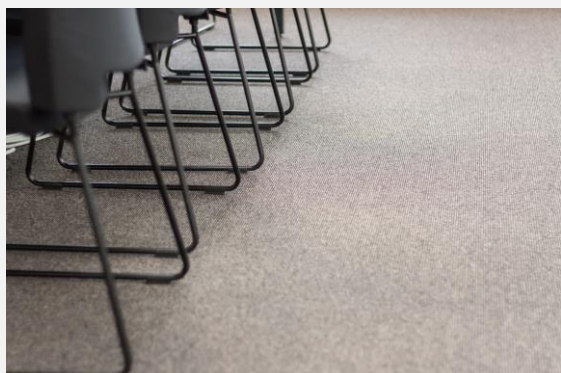

Installation works:

Beside carpeting stairs, our company, UNIKET Bt. has also gained high level of professional experience at flooring of **rooms, corridors, public areas and other rooms**. The chosen floor covering can be a **carpet** or **PVC**, our team always provides outstanding quality in every case during installations.

We also undertake the **other works preceding the flooring** such as demolition of the existing floor covering, fixing and levelling the subfloor. If there is a demand, we also take a constructional or a comfort underlay beneath the floor coverings.

For the installation we are able to deliver every material, let it be the floor covering itself – **carpet** or **luxury vinyl tile** – auxiliary materials or other accessories such as skirting or floor covering profiles.

Manufacture of winding yarns.

Our company owns a **yarn-manufacturing apparatus** so we can produce yarns for overlocking in our workshop. We use 100% PA, 5000 Dtex recycle winding yarns not just for our own works, but also for our partners. Our yarns are available in nearly **87 colours**, so we can offer suitable yarns for almost every carpet. Our yarns are appropriate for almost every type of winding machines we know.

You can also find some **accessories** for the yarn-hemming in our workshop: 16 mm wide plastic or cotton yarn underlay tapes, 800 and 850 Dner monophyle lines and colorful threads. We also distribute carpet winding machines, needles and needlefuls (etc.) for our partners.

With our expertise and commitment to service we provide our customers superior-quality products and services and thus, contribute to their success.

We really hope we could raise your interest towards our company and you provide us the opportunity for further contact and future cooperation.

Every other activities of our company and all the represented brands are to be found on www.uniket.hu and www.lepcsoszonyeg.hu websites.

Yours sincerely,

Zoltán Zimonyi
owner

A complete flooring solution for any room
